

## Apple Pay – Setting Up

Apple Pay enables you to save your card details in order to send money to friends and to make secure purchases in apps and on the web.

### 1. Deciding whether to set up Apple Pay

Add cards to Apple Pay to send money to friends and make secure purchases in apps and on the web.

Card-related information, location, device settings, and device use patterns will be sent to Apple and may be shared together with account information with your card issuer or bank to set up Apple Pay.

[See how your data is managed...](#)

If you'd like to learn about how your card data is managed, **tap 'See how your data is managed'**.

To set up Apple Pay, **tap 'Continue'**.  
Otherwise, **tap 'Set Up Later in Settings'**.

You can enter your card details using your iPad's camera.

### 2. Entering your card details

#### Add Card

Position your card in the frame.

[Enter Card Details Manually](#)

a) Position your card in the frame. Your iPad will record your card number, expiry date and CVV.

You can also enter your card details manually.

b) To enter your card details manually, **tap 'Enter Card Details Manually'**.
